CREDIT SCORE

FACTOR ANALYSIS

DECISION STATUS:

APPROVED

Your financial profile demonstrates strong stability with consistent income growth. While credit card utilization is slightly elevated, your impeccable repayment history and diverse credit mix make you a prime candidate for premium lending tiers.

STRENGTHS

- Zero payment defaults recorded over a 7-year credit history.
- Healthy mix of secured (Home Loan) and unsecured credit lines.
- Debt-to-Income (DTI) ratio is at a healthy 28%, significantly below the 40% threshold.
- Consistent income deposits detected from verified employer sources.

RISK FACTORS

- Credit utilization ratio spiked to 45% in the last billing cycle (Ideal: <30%).
- High frequency of small-ticket personal loan inquiries in Q3.
- Average monthly balance dropped by 15% compared to the previous fiscal year.

RECOMMENDED ACTION PLAN

[ ] Pay down credit card outstanding balance by ?1.5L to optimize utilization score.

[ ] Avoid applying for new unsecured loans for 6 months to stabilize inquiry rate.

[ ] Maintain a minimum average quarterly balance (AQB) of ?50,000 to improve banking variance score.

[ ] Consolidate two active consumer durable loans to reduce EMI clutter.
